This would be a change order for 24-697

Not even sure where to start- can you help?

Hi, Heather. I spoke to the client and there were some pieces missing from the 3rd and 4th floor installation. Please confirm these items will be coming with the items for the 1st and 2nd floor installation and will be completed at that time.

Also, we need one additional roller shade for the window indicated in the attached print. This window matches the size of the GM's office and the Sales office, for which we have already placed orders. What is the lead time on this item?

Megan

We had to go ahead and pull the trigger to get this there in time for the install.

It is actually coming the afternoon of the 17th. Is there anything at all that can be done?

I believe it has already been picked up.
